

## THE PRUSSIAN ARMY OF THE NAPOLEONIC WARS prior to 1806.

*Gary Clark*

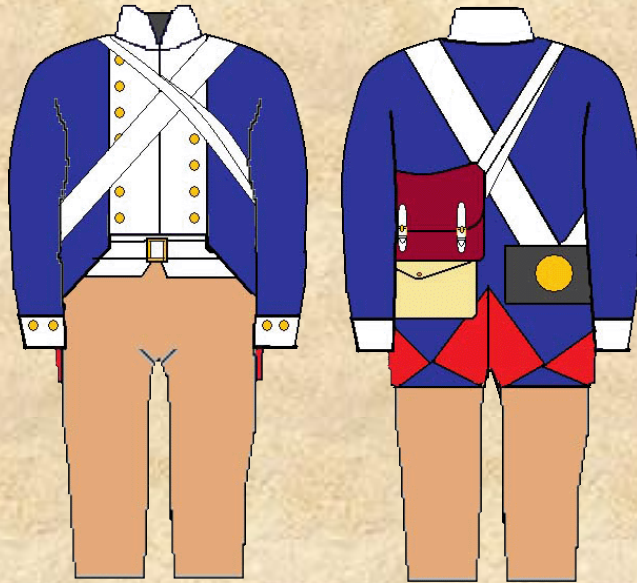

The regular Prussian army at the beginning of the Napoleonic Wars was well trained, well disciplined, splendidly uniformed and had the misfortune to meet Napoleon and the French army when both were at the height of their military prowess. As a result, the army was badly defeated in 1806 and much reduced in strength and numbers. This section deals with the colourful uniforms worn up the fateful year of Jean-Auerstadt.
